	Revox Wall Bracket (2pcs) for STUDIOART Room Speaker Easy installation, including necessary accessories. Safety tested and UL listed. 2 pieces per packing unit. **Order number:** **141020101**
	Revox Wall Bracket for STUDIOART S100 Audiobar For positioning the Revox Audiobar on the wall. Easy installation, safetytested. 2 pieces needed for the mount. **Order numbers:** **141010101 black** **141010201 white**

STUDIOART Operation

	Revox STUDIOART App Steuern Sie Ihre **STUDIO**ART Produkte per App. Auch Multiroom Gruppen können direkt in der Geräteübersichtsliste durch eine drag & drop Funktion erstellt oder getrennt werden.

Revox Speakers
Scala Speakers

Revox Scala S120

The Scala 120 impresses not only acoustically, but also visually with its design. The 2.5-way bass reflex speaker convinces by delivering a perfect music experience. Our engineers developed a special milling process and a tailored bonding and pressing technique specifically for the production of the highly complex wooden cabinet. With cabinet walls stiffened multiple times, the appeal of the Scala lies in its handcrafted finishing of the highest standard.

120/150 Watt – 40 Hz to 30 kHz – 88 dB (2,83V/1m)
Dimensions: W 128 x D 187 x H 1215 mm
Dimensions glass base: W 250 x D 250 x H 12 mm

Order numbers: **108471600 white**
                            108471700 black

G Series Speakers

	Revox Prestige G140 3-way bass reflex speaker that offers highly impressive sound reproduction with deep bass, clearly defined midranges, and precise trebles. This elegant sound column with an 8 mm thick glass front panel and glass base delivers excellent sound results, not only as a stereo speaker, but also in sophisticated surround arrangements. Glass front panel and glass base. 140/180 Watt – 36 Hz to 30 kHz – 90 dB (2,83V/1m) Dimensions: W 140 x D 270 x H 1262 mm Dimensions glass base: W 260 x D 390 x H 12 mm **Order numbers:** **108422500 silver/black glass** **108422600 white/white glass** **108423600 black/black glass**
	Revox Elegance G120 2.5-way bass reflex speaker with highly elegant slender design and excellent sound performance, also thanks to the D'Appolito chassis arrangement. Glass front panel and glass base. 120/150 Watt – 40 Hz to 30 kHz – 86,5 dB (2,83V/1m) Dimensions: W 104 x D 160 x H 1112 mm Dimensions glass base: W 210 x D 270 x H 12 mm **Order numbers:** **108423000 silver/black glass** **108423100 white/white glass** **108423500 black/black glass**
	Revox Column G70 Slender 2.0-way bass reflex speaker with great sound, also thanks to the D'Appolito chassis arrangement. Glass front panel and glass base. 70/100 Watt – 42 Hz to 30 kHz – 86,5 dB (2,83V/1m) Dimensions: W 104 x D 104 x H 1112 mm Dimensions glass base: W 215 x D 215 x H 12 mm **Order numbers:** **108421500 silver/black glass** **108421600 white/white glass** **108423400 black/black glass**

	Revox Center G100
	
	Surround solution for your home cinema. Delivers realistic voice reproduction and centre sound placement for authentic surround sound. Can be combined with speakers from the G series.
	
	100/130 Watt – 45 Hz to 30 kHz – 88 dB (2,83V/1m)

Built-In Speakers

With the Revox Built-in Speakers, we've designed a series which combines amazing sound and the greatest optic discretion, because the speaker frame is practically invisible to the eye. These premium audio transducers fit seamlessly into any room décor and surprise the listener with both their sound as well as their remarkable presence and fullness.

Infra-red receivers are available optionally for all speakers in the Built-in series. Hidden entirely behind the metal grill, the receiver controls the Revox Multiuser System on site remotely, even when the amplifier is in a different room. The Built-in Speakers are also insensitive to moisture and can also be installed in the bathroom or in a protected outdoor area, for example in a canopy for an outdoor seating area.

The stereo version with double tweeters is intended to provide excellent sound in particularly small spaces. The low installation depth also allows a problem-free and easy installation of all speakers of the I series.

A special highlight: The Revox amplifiers of the multiuser system contain the individual frequency responses of all Revox Built-in Speakers. This specific frequency correction guarantees studio sound quality that is true to the original.
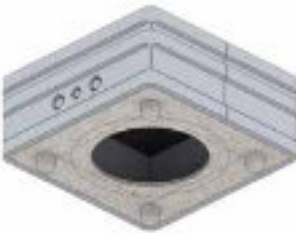

Revox Inceiling I52

Round 2-way built-in ceiling speakers (white) for installation
in suspended ceilings of medium-sized rooms.
Technical data: frequency range within ceiling: 50 Hz - 20 kHz
(IEC); frequency range with Revox housing: 60 Hz - 20 kHz;
crossover frequency: 4 kHz, performance: 50/70 Watt;
impedance: 6 Ohm, efficiency: 88 dB/2.83V/1m;
receiv. amplifier power: 20-100 Watt
outer diameter: 202 mm, cutout diameter: 165 mm; installa-
tion depth: 75 mm; weight: 1,2 kg

Installation Aids

	Revox Trimless Mounting Kit - I52 Speaker For flush mounting of I52 recessed loudspeakers in drywalls and ceilings. We recommend the additional use of a Secobox (order no. 179146200). Material: MDF white primed, dimensions: 261 x 261 x 25 mm, cut-out 165 mm round (Inceiling) resp. cut-out 148 x 148 mm square (Inwall). Incl. 4 double-sided adhesive dots for fixing the Secoboxx. Packed in shrink-wrap with enclosed operating instructions. **Order numbers:** **179146210 for Inceiling I52** **179146220 for Inwall I52**
	Revox Trimless Mounting Kit - I82 Speaker For flush mounting of I82 recessed loudspeakers in drywalls and ceilings. We recommend the additional use of a Secoboxx (order no. 179146200). Material: MDF white primed, dimensions: 339 x 339 x 25 mm, cut-out 238 mm round (Inceiling) resp. cut-out 222 x 222 mm square (Inwall). Incl. 4 double-sided adhesive points for fixing the Secoboxx. Packed in shrink-wrap with enclosed operating instructions. **Order numbers:** **179146230 for Inceiling I82** **179146240 for Inwall I82**

Installation Housings

	Euroboxx Ceiling installation housing consisting of EPS base body with glued-in OSB rear wall cover and OSB front with cut-out for installation in concrete ceilings. Dimensions Euroboxx M for I52 330 × 330 × 160 mm (L × W × H); Installation depth max. 145 mm Dimensions Euroboxx L for I82 390 × 390 × 175 mm (L × W × H); Installation depth max. 175 mm **Order numbers:** **179144000 for Inceiling I52** **179145000 for Inwall I52** **179144101 for Inceiling I82** **179145100 for Inwall I82**
	Wallboxx Universal installation housing Wallboxx, designed for masonry and concrete walls. The Wallboxx enables professional installation of built-in speakers. Front and rear panels are made of OSB and integrate seamlessly into the workflow for easy further processing of the wall surface. The surrounding base body made of EPS is low in resonance and has sound-insulating properties. The loudspeaker opening has to be made by a self-cut-out. Dimensions Wallboxx M for I52 435 × 390 × 120 mm (L × W × H) Dimensions Wallboxx L for I82 590 × 435 × 120 mm (L × W × H) **Order numbers:** **179146000 for all I52** **179146100 for all I82**
	Secoboxx Universal recessed wall and ceiling housing for Inwall I52, Inceiling I52, Inwall I82 and Inceiling I82. Designed for suspended ceilings and drywalls. Recessed enclosure consisting of high-quality acoustic panels. Optimum protection against dust, insects and drizzle. The loudspeaker opening has to be made by a self-cut-out, the rest is prepared ready for mounting and easy to install. Dimensions Secoboxx XS for all I52 & I82 290 × 290 × 100 mm (L × W × H) **Order numbers:** **179146200 for all I52 & I82**

Invisible Speakers

The innovative, millimetre-thick flat loudspeakers are installed completely hidden below the plaster, paint or wallpaper, turning your wall or ceiling into invisible sources of sound. It's an uncanny listening experience: the soundboards were developed specifically for this purpose to provide a flat emission. This makes the harmonious sound equally enjoyable from anywhere in the room, regardless of where the listener is. Unleash your imagination! With the Revox Invisible speakers, there's no longer any limit to your decorating ideas.

The implementation of the audio solution can not be compared to that with conventional speakers. In addition, it varies depending on the type of installation or processing of the surface. When installing the loudspeaker, it must be taken into account that it is no longer accessible afterwards without destroying it. A correct installation - the rules of DIN drywall construction, the basics of painting and plastering technology and the assembly instructions for the products of the Invisible series - must therefore be observed.

The Invisible loudspeakers can be operated with certain amplifiers. The Revox the M30 Multiuser Amplifier, **STUDIO**MASTER M500, **STUDIO**MASTER M300 and the V219 Multiuser Amplifier offer options for connecting these loudspeakers.

For professional advice, please contact your authorized Revox partner or Revox itself.

Revox INV UNIT

Panel loudspeakers installed invisibly under plaster, paint or wallpaper. Flat radiation characteristics. Full-range speaker with special polymer membrane equipped with high-performance subwoofer and exciter. Especially for invisible integration in drywall, solid construction, walls and ceilings.

Dimensions: 900 x 410 x 97 mm, 4 Ohm, 120 Watt

Order number: 108469630

Revox INV 40 aqua slim

Surface loudspeaker particularly suitable for invisible background sound in rooms with increased humidity such as bathrooms and swimming pools. With polymer, moisture-protected special membrane for integration in dry construction, solid construction, walls and ceilings. Preferably on and in expansion panels to improve the room acoustics made of glass granulate expanded glass panels.

Dimensions: 400 x 300 x 33 mm, 4 Ohm, 40 Watt

Order number: 108466300

Revox INV 40 wood slim

Surface loudspeaker particularly suitable for invisible background sound in rooms with wall and ceiling cladding as well as furniture made of wood and wood-based panels. With polymeric, specially coated special membrane for sustainable, flat bonding.

Dimensions: 400 x 300 x 33 mm, 4 Ohm, 40 Watt

Order number: 108466400

Revox INV 20 mini

The mini version of the flat-panel loudspeakers for space-saving installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The speakers are protected by a plastic cover on the back.

Dimensions: W200 x H300 x D33 mm, 8 Ohm, 20 Watt

Order number: 108466000

	Revox INV 20 mini carbon The mini version of the flat-panel loudspeakers for space-saving installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The speakers are protected by a plastic cover on the back. Suitable for outdoor use thanks to the special carbon membrane. Dimensions: W200 x H300 x D33 mm, 8 Ohm, 20 Watt **Order number:** 108466100
	Revox INV 20 slim The innovative flat-panel loudspeaker, only a few millimetres thick, is installed completely invisibly under plaster, paint or wallpaper and turns the wall or ceiling into a hidden sound source. With polymer, specially coated special membrane for lasting, flat bonding. Dimensions: W300 x H400 x D33 mm, 8 Ohm, 20 Watt **Order number:** 108466900
	Revox INV 20 slim carbon The innovative flat-panel loudspeaker, only a few millimetres thick, is installed completely invisibly under plaster, paint or wallpaper and turns the wall or ceiling into a hidden sound source. With polymer, specially coated special membrane for lasting, flat bonding. Suitable for outdoor use thanks to the special carbon membrane. Dimensions: W300 x H400 x D33 mm, 8 Ohm, 20 Watt **Order number:** 108466200
	Revox INV 40 stereo Stereo Invisible loudspeaker in one size for installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The back of the speakers is protected by a plastic cover. Dimensions: 625 x 410 x 52 mm, 2 x 8 Ohm, 2 x 20 Watt **Order number:** 108467300
	Revox INV 40 stereo carbon Stereo Invisible loudspeaker in one size for installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The back of the speakers is protected by a plastic cover. Suitable for outdoor use thanks to the special carbon membrane. Dimensions: 625 x 410 x 52 mm, 2 x 8 Ohm, 2 x 20 Watt **Order number:** 108467500

Revox INV 40

Invisible loudspeaker in one size for installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The back of the speakers is protected by a plastic cover.

Dimensions: 625 x 410 x 52 mm, 4 Ohm, 40 Watt

Order number: **108467100**

Revox INV 40 carbon

Invisible loudspeaker in one size for installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The back of the speakers is protected by a plastic cover. Suitable for outdoor use thanks to the special carbon membrane.

Dimensions: 625 x 410 x 52 mm, 4 Ohm, 40 Watt

Order number: **108467600**

Revox INV 40 PE

Invisible speaker with integrated passive equalisation. A primer allows installation under plaster or paint as well as gluing. The back of the speakers is protected by a plastic cover.

Dimensions: 625 x 410 x 52 mm, 4 Ohm, 40 Watt

Order number: **108467400**

Revox INV 80

Invisible speaker for the installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The back of the speakers is protected by a plastic cover.

Dimensions: 625 x 410 x 52 mm, 8 Ohm, 80 Watt

Order number: **108467200**

Revox INV 80 carbon

Invisible speaker for the installation in ceilings and walls. A primer allows installation under plaster or paint as well as gluing. The back of the speakers is protected by a plastic cover. Suitable for outdoor use thanks to the special carbon membrane.

Dimensions: 625 x 410 x 52 mm, 8 Ohm, 80 Watt

**Order number:**   **108467700**

	Revox INV HEX Invisible speaker for bonding to hard surfaces such as plastic, wood or aluminum composite panels. Transforms vibrating surfaces into invisible loudspeakers by gluing them to the back. Thanks to its compact design and special high-efficiency cone, the INV HEX is extremely versatile. Includes 25g 2K high-performance adhesive. Dimensions: W 190 x H 220 x D 42 mm, impedance: 8 Ohm, performance: 60 Watt RMS, protection: high-pass filter (60 Hz), self-resetting overcurrent protection (PTC) **Order number:** **108465000**
	Revox INV HEX Cover The INV HEX cover offers a wide range of applications. The robust plastic housing with cable gland protects the INV HEX from external damage as well as moisture or dirt and extends its service life. The cover can also be used as a built-in housing. Once mounted over the INV HEX, the cover can be screwed to the surface through the existing holes or glued to the surface with Merbenit SF50. Dimensions: W 360 x H 360 x D 46 mm **Order number:** **108465001**

Invisible Subwoofer

	Revox INV SUB High-performance subwoofer with a special polymer memb-rane installed invisibly under plaster, paint or wallpaper. Flat radiation characteristics. Especially for invisible integration in drywall, solid construction, walls and ceilings. Very low installation depth. Impressive bass reproduction with high sound pressure. Easy installation and low-vibration housing construction. Dimensions: 900 x 410 x 97 mm, 4 Ohm, 100 Watt **Order number:** **108469620**
	Revox Invisible Subwoofer SW 200 GK Subwoofer with fleece-reinforced plasterboard front for al-most invisible integration into drywall. Impressive low-frequency reproduction at high sound pres-sure levels. Discreet appearance. Easy installation and low-vibration cabinet design. Dimensions: 780 x 625 x 101 mm, 8 Ohm, 400 Watt **Order number:** **108469606**
	Revox Invisible Subwoofer SW 200 IN Subwoofer with HI-PS plastic front for almost invisible integra-tion into wood and material panels. Impressive low-frequency reproduction at high sound pres-sure. Discreet appearance. Easy installation and low-vibration cabinet design. Dimensions: 780 x 625x 94 mm, 8 Ohm, 400 Watt **Order number:** **108469616**

Invisibles Accessories

	Revox Invisible Highpass Protection Unit The high-pass filter protects Invisible speakers (4 Ohm/ 8 Ohm) from low-frequency bass components and thus relieves the speaker, both thermally and mechanically. Not required for Revox / Ecler DSP amplifiers. **Order numbers:** **108469907** (4 Ohm) **108469908** (8 Ohm)
	Revox Invisible 1K SMP Special Adhesive white 290 ml 1K SMP special adhesive, solvent free, white, 290 ml. For gluing speakers and frames to the wall, but also for gluing soundboards over the entire surface in a solid material. **Order number:** **108469903**
	Revox Invisible Installation Angle, drywall Installation aid for mounting Invisible speakers in a plaster-board wall or ceiling. **Order numbers:** **108469912** INV mini (W200 x H300 x D33 mm) **108469913** INV (W410 x H625 x D52 mm)
	Revox Invisible Installation Frame, concrete Installation aid for mounting the Invisible loudspeaker in a concrete wall, ceiling or wall. **Order numbers:** **108469911** SW200 GK (W625 x H780 x D70 mm) **108469921** INV slim (W300 x H400 x D33 mm) **108469922** INV (W410 x H625 x D52 mm) **108469923** INV SUB/UNIT (W410 x H900 x D97 mm)
	Revox Invisible Pouring Housing, concrete Placeholder for INV (W410 x H625 x D52 mm) when pouring the concrete, made of plastic material. **Attention:** Installation in concrete walls or concrete ceilings requires professional planning and implementation with regard to sound transmission. Please contact your authorized Revox partner or Revox. **Order numbers:** **108469924** INV (W410 x H625 x D52 mm) **108469925** INV SUB/UNIT (W410 x H900 x D97 mm)

Revox Multiuser | Multiroom System

For more than 30 years Revox has been the leading manufacturer of extraordinary solutions in the area of customizable multiroom systems to bring music of highest audio quality to many living spaces simultaneously. The music is reproduced uncompressed and lossless, with minimum response time and absolutely time synchronous in every room.

Revox Multiuser systems go even further than conventional Multiroom systems.
The new software platform Multiuser 3.0, developed by Revox, offers decisive advantages. In addition to the LAN cable, it is also possible to integrate several products for a Multiroom application via WLAN. Each available source and its specific content can be created as favourites individually for each user.
The concept offers each user a completely individual music experience. Personal favourites are immediately accessible for each user. Preferences of different users can be defined and easily and immediately operated. No matter whether in one room or in several rooms.

Multiuser Hardware

	Revox STUDIOMASTER M500 High-end audio system also suitable for multiuser use. Incl. 4 user licences. Further information p. 4. **Order numbers:** 156500500 silver/black glass 156500510 white/black glass 156500520 black/black glass
	Revox STUDIOMASTER M300 High-end audio system also suitable for multiuser use. Incl. 4 user licences. Further information p. 5. **Order numbers:** 156500300 silver/black glass 156500310 white/black glass 156500320 black/black glass
	Revox M30 Multiuser Amplifier Amplifier for the Revox Multiuser 3.0 System. WLAN Multi-room capable with 2 x 50 watts, integrated Airplay 2 interface, In/Out trigger and connection option for a Revox wall control. **Order number:** 156300300
	Revox V219 Multiuser Amplifier Amplifier for the Revox Multiuser system with 2x50 watt, in/out trigger and connection options for a Revox wall-mounted control. Update to Multiuser 3.0 possible. **Order number:** 156300500
	Revox V400 Multiuser Server The V400 Server supplies all room amplifiers and Multiuser modules with the relevant streams and coordinates the operation of apps or home control systems. Update to Multiuser 3.0 possible. Includes 2 user licenses with access to all sources provided by the server. (For additional licenses, see Multiuser Accessories.) **Order number:** 156301001

	Revox Multiuser App for iOS and Android The patented simplest operation - worldwide. The newly developed Revox Multiuser App enables a very unique operation. Each user always has their favourites on his personal start page of the App. Each user can create their own user profile in the App. Individual rooms can be controlled individually and zones can be set up and operated.
	Revox Multiuser I/O-HDMI Module Optional module for the M30 Multiuser Amplifier with two classic audio inputs (analog and optical), an HDMI-ARC input and a configurable analog audio output. All audio inputs are audio-sensitive configurable, the HDMI-ARC input also has a CEC trigger. **Order number:** 156308100
	Revox Multiuser I/O Module Optional module for the amplifier M30 and V219 with three classical and sensitive audio inputs (analogue, coaxial und optical) as a configurable analogue audio output. **Order number:** 156308000
	Revox Multiuser 19" Rack Shelf A shelf allows the installation of up to 2 Multiuser V219 or M30 amplifiers in a 19" rack with one height unit. **Order number:** 156309000
	Revox Multiuser Wall Bracket A bracket for mounting the V219 and V219b amplifier to a wall. **Order number:** 156309100
	Revox Multiuser 3.0 KNX Gateway The KNX Gateway allows the integration of the **Multiuser 3.0 System** into the building automation. **Order number:** 156309550

M204 Accessories

	Revox M204 IR Receiver IR receiver for installation behind covers or blanking plates from switch ranges. **Order number:** 172090600
	Revox M204 IR Receiver Aluminium Gehäuse This IR receiver can be placed discreetly almost anywhere. **Order number:** 172090400
	Revox M204 Receiver Flange IR receiver for integration in loudspeaker housings or other hollow bodies. Installation via a 20 mm mounting hole. **Order numbers:** 172090300 black 172090350 white

Multiuser Licences

	Revox Multiuser 3.0 Remote License The Remote licence is activated by Revox on a device - specific basis and enables remote access to a Multiuser 3.0 server. **Order number:** 156306040
	Revox Multiuser User License for V400 Server This license includes all sources provided by the server server for 1 user, incl. audio stream, which includes internet, radio Internet, Radio, Favourites and the Audio Server. Incl. AirPlay, Spotify, Tidal and Deezer. **Order number:** 156306030
	Revox Multiuser Hotel License From the 8th user license, the hotel mode is automatically activated on the V400 (Multiuser 2 System). Please ask your Revox sales consultant for prices.

Global Caché Products

	Revox Global Caché iTach wired TCP/IP to IR Converter of IP telegrams to infrared to control third party products via infrared commands, also as PoE (Power over Ethernet) version. **Order number:** **156304901** **156304905 PoE**
	Revox Global Caché iTach wired TCP/IP to RS232 Converter of IP telegrams to RS232 for controlling third-party products with serial interface, also as PoE (Power over Ethernet) version. **Order number:** **156304902** **156304906 PoE**
	Revox Global Caché IR Learner Interface for teaching in infrared commands. **Order number:** **156304910**
	Revox RS232 Cable for Joy CD Player to Global Caché Per meter. **Order number:** **156102040**

Revox Control
STUDIOCONTROL

|	
	Revox STUDIOCONTROL C200 The **STUDIO**CONTROL C200 is an Android based and Google certified control with docking station. It is made of aluminum and equipped with a high-quality touch display. It enables the comfortable control of audio systems and is suitable for various SMART HOME applications. • Innovative control • Easy installation of apps • User-friendly operation • High resolution touch display • Outstanding Design • Usable and within reach for everyone in the house • Durable and robust due to the aluminium housing • Individual setup and use of defined apps through the launcher mode **Order number:** **156309200 black**

Multiuser Control

|	
	Revox C100 Multiuser Remote Control IR remote control with LED feedback for the Revox Multi-user System 3.0 (requires an IR receiver in the room). 4 User favourite buttons, which are supplemented by 4 user and additional function buttons. CR2032 lithium batteries are included. **Order number:** 156310000 black
	Revox V208 Multiuser Remote Control IR remote control with LED feedback for the Revox Multi-user System 2.x (requires an IR receiver in the room). 4 user buttons, which are supplemented by additional source and function buttons. CR2032 lithium batteries are included. **Order number:** 156309400 black
	Revox C18 Multiuser Wall Control Wall control for the Revox Multiuser System 3.0 in the design Gira System 55. Frame not included. **Order numbers:** 156307200 shiny white 156307203 anthracite 156307207 black
	Revox C18 Multiuser Wall Control Cover Plate Cover plate for the Revox C18 Multiuser Wall Control in the design Gira System 55. Frame not included. **Order numbers:** 156307210 shiny white 156307213 anthracite 156307217 black
	Revox V218 Multiuser Wall Control Wall control for the Revox Multiuser 2 System, in the design Gira System 55. Frame not included. **Order number:** 156307000 shiny white Other colours on request.

App Operation

	Revox Multiuser App for iOS and Android The patented simplest operation - worldwide. The newly developed Revox Multiuser App enables a very unique operation. Each user always has their favourites directly on their personal start page of the App. Each user can create their own user profile in the App. Individual rooms can be controlled individually and zones can be set up and operated.
	Revox Joy App for iOS and Android For further information see page 9.
	Revox STUDIOART App for iOS and Android For further information see page 12.
	Revox Multiuser 2 App for iOS and Android For controlling the Revox Multiuser Systems Version 2.x. Provides access to various sources of the Multiuser System and also to the integrated audio services such as Internet radio or music server. Each user can be assigned rights for sources and rooms.
